

AYUSH KUMAR

FRONTEND DEVELOPER

aayushkumar1228@gmail.com | [LinkedIn](#) | [Github](#) | +91 85278 85303 | New Delhi, India

SUMMARY

Frontend Developer with 2+ years of experience shipping responsive, performant interfaces using React, Next.js, TypeScript, and Tailwind CSS. Comfortable owning projects from end-to-end design handoff to deployment with hands-on experience in Node.js, MongoDB, and AI-integrated tools. Now looking to bring that into a collaborative team environment.

WORK EXPERIENCE

Frontend Developer | Contract | Multigraphics Group | New Delhi, India | April 2023 - June 2023

Project: Oraanj—Interior Design | [Live](#)

- Raised accessibility score to 97/100 by restructuring semantic HTML and applying performance optimization techniques, including lazy-loading and reduced layout shifts
- Delivered a fully responsive mobile-first redesign, converting static Figma designs to production-ready code, cutting client-reported UI bugs by 40% through cross-browser testing

Frontend Developer | Freelance | Multiple Clients | New Delhi, India | Apr 2023 - Oct 2025

- Built responsive React and JavaScript web applications for multiple independent clients, owning end-to-end delivery from design to deployment
- Collaborated within small development teams on client projects across design, development, and cross-browser testing

PROJECTS

Inkwell | Next.js, TypeScript, TailwindCSS, Clerk, Vapi AI, Vercel Blob, MongoDB

- Built an AI voice-based PDF conversation platform, reducing document review time by 70% per session, integrating Vapi AI for real-time voice interaction, and Vercel Blob for scalable file storage
- Resolved 5+ critical deployment blockers, including Turbopack/Webpack conflicts, pdfjs-dist v5 incompatibility, and Clerk auth redirect loops to ship a production-ready app

AI Resume Analyzer | React, Vite, Puter.js, Zustand, TypeScript, TailwindCSS, React Router v7

- Engineered a tool reducing resume review time to under 15 seconds by integrating Puter.js for file handling and AI-driven feedback through a modular type-safe architecture
- Replaced heavier state libraries with Zustand for lightweight global state management, keeping bundle size minimal and improving overall app performance

Lynk | React, Node.js, MongoDB, TanStack Query

- Built a full-stack URL shortener with custom link generation and a JWT/Bcrypt authentication system for secure, protected user accounts
- Reduced redundant network requests by 35% using TanStack Query for server state caching, improving perceived load time across all devices

SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, Tailwind CSS, Framer Motion, GSAP, Three.js, HTML, CSS

Backend and Data: Node.js, Express, MongoDB, JWT/Bcrypt, REST APIs. **CMS and Platforms:** Wix, WordPress, Shopify

Tooling and Deployment: Git, GitHub, Vite, Vercel, Render. **Design:** Figma, Responsive and Accessible UI, Lighthouse Audits

EDUCATION & CERTIFICATIONS

Indira Gandhi National Open University [IGNOU],

Bachelor of Computer Application [BCA]

Coursework: Data Structure, OS, Computer Networks, DBMS, Algorithms, Web Programming

New Delhi, India

June 2024 - June 2027

Certifications:

- **Web Design & Development**—Dice Academy,

Oct 2022 - April 2023
